## Damage Waiver Program

Fast, effective protection that saves you time and money

### Program Benefits

Protect equipment in a matter of minutes. By using us to insure and finance equipment, your claims and financing needs are handled quickly and professionally. We arrange for insurance specifically designed for your leased equipment, often providing more coverage than other property insurance policies.

Our experienced staff works closely with you to find the right option for your business. You can also insure equipment not currently leased through U.S. Bank Equipment Finance.

### What's Covered Under the Program?

#### ■ Protect Equipment From

- Equipment breakdown\*
- Operator error
- Burglary
- Accidental damage
- Fire
- Vandalism
- Lightning damage
- Wind, flood, hurricane (available)

#### ■ Types of Equipment Insured

- Machine Tool
- Plastic
- Fabrication
- Printing
- Packaging/Labeling
- Computer
- Hospital

You may find that many broad form property policies do not insure these types of incidents. We have a vested interest in your equipment and the success of your business and want to ensure you're properly protected.

\* Perils covered may include, but are not limited to, breakdowns of compressors, spindles, motors, turrets, bearings, ball screws and gear sets.
