WELDMARK BY JACKSON

HSL-INSIGHT Digital helmet is built with the professional in mind. Large viewing area coupled with light weight allows the operator the comfort and visibility to work all day. With over 9 square inches of viewing area and a variable shade from 9 to 13 there isn't a welding process you can't perform.

ANSI & CSA APPROVED

WEM HSL-INSIGHT Variable Auto-Darkening Filter (ADF) Same as JAC 46129
